

Particle Detection: from Ground to Space and Space Weather Impact

Saturday 17 February 2024

Particle Detection: Measuring High Energy Cosmic Rays and Neutrino from IceCube Neutrino Observatory (09:00-10:00)

-Conveners: Paul Evenson

Particle Detection: Particle detection: neutrino from accelerators and reactors (10:30-11:30)

-Conveners: Albert De Roeck

Particle Detection: Low Energy Cosmic Rays Detections and Application at Space Weather War Room (16:00-17:00)

-Conveners: Achara Seripienlert; Waraporn Nuntiyakul
