

Probing Relativistic Gravity in the SKA Era workshop

Saturday 26 January 2019 - Monday 28 January 2019

Kantary Hills, Chiang Mai

Scientific Programme

Main topics

- 1.) Introduction to radio astronomy and the Square Kilometre Array (SKA)
- 2.) Introduction to radio pulsars, and their implications for general relativity and gravitational waves
- 3.) Nano-Hertz gravitational wave astronomy with International Pulsar Timing Array
